Executive Summary

Barasat Institute of Social Activity (**BISA**) has been working for nine years on child development with slum children in Hatkhola under Barasat Municipality of North 24 parganas. We strongly believe on “**A dynamic civil society by implementing the fundamental rights at all levels, through the change of behavior of our society.**” BISA also works on WASH, RCH, Environment & Legal Aid service for deprived people.

BISA has gathered some pathetic experience through right base activities with children in the community; Major problems are domestic child labor, drop-out children as well as child marriage. **The Child Rights Constitution** under **United Nations** speaks of four sets of civil, political, social & economic and cultural rights of every child without any discrimination. So, everybody knows that the government has taken progressive scheme for these children. But we observe carefully that the needy children are being deprived of this scheme for lack of proper initiative. It is burning problems of our community.

BISA gets support from local community. We have conducted child development program at Hatkhola (Indira colony, Parichran Sarkar Colony, Ambedkar colony) including health and educational development of slum children. It is also conducting Environment Development Program in different areas of Barasat Municipality. BISA is going to start work on rights of third gender. It is related with human rights.

To try formulating a forum consisting of general people with CBO's, NGO's, and honorable elite persons as well as common people to save the fundamental rights of people from all levels of society.

BISA has accepted the challenge to **change the behavior in community through right base activity** for their development at all aspect of life. So, we can't stop here because it is a great duty for our organization & our society. We can't avoid that our nation is going through critical problems in mankind. I will hope that we will get support from our volunteers, followers & well wishers and expect their cooperation in future also.

Education Programme :-

Education Support to 60 children :

Education centre conducted by volunteers of BISA at morning & evening time.30 children come to the centre for received direct education input from the teachers & 30 children get support education material. But 200 children of hatkhola slum children indirect benefited from centre through other social activity. We provide bags, books, pencil, and school dress.

BISA Study Centre: We make BISA Study Centre for domestic & helpless children in slum area at Barasat Municipality under Barasat 2 no block of North 24 parganas. The organization has limitation to properly manage smooth operation and is facing challenges to address some potentialities to give better support for th e children. During reporting period the centre is giving support to 30 children. The centre provides academic education, Cultural education Skill development training as well as tuition fees.

Cultural Education: The centre organizes different cultural events to the choice of the students. They are encouraged to take part into the events drawing, drama, Republic Day and observed of 15th August. The children celebrated the different great person who fight for freedom of India. We learn education from their sacrifice life.

Motivation of parents: The centre is working specially for those parents to change their mentality by motivation through visiting their house. More over early four meetings are arranged at a fixed date in time. Parents of centre students gather and proclaim their various valuable opinions there. The volunteers can share with the parents of students on their progress regarding family life and class as well.

Capacity building: 63 children are being participated in these meeting.

Topics are:

- Major time of hand wash
- Process of hand wash
- Water born disease

Stakeholder Meeting: BISA has been identified local stakeholder in Hatkhola under Barasat Municipality of North 24 parganas. 15 participated in this meeting. The meeting conducted on Child Need & Child Rights. Our discussion issues are:

- Identified
- Drop-out children, domestic child labors.
- Need assessment of these children.
- Child Education Nutrition

Advocacy with Government key persons: Most of the children son of domestic labor who are deprived from their basic constitutional rights. Volunteers went to government department for arise voice for the helpless children & women. We discussed on gap of need & implementation policy of child & women. Our discussion issues are –

- 1) Drop-out children
- 2) Sponsor scheme support to the domestic child labor.
- 3) Propaganda on child line at Hatkhloa slum.
- 4) City level child protection committee.
- 5) Adolescent girls health &
- 6) Livelihood

Risk assessment: BISA volunteers organized a risk mapping with the children on 12.12.18 in Paricharan Sarkar Colony. Specially focus on girl safety in this area from bad motive person. 23 female children are participated in the mapping. They show interest about the activity. At first one child lay on the ground where kept an art paper. All children stand around centrally. One child outlines the shape of body.

Volunteers encourage to the children that draw a picture good touch & bad touch. Most of the participants identified the risk factor & who hampered to them? They feel safe/unsafe .Participants categories risk identified from their group discussion. At t he least, all candidates prepared a chart touch matrix of good touch & bad touch.

Entitlements :- With regards to facilitating access to rights & entitlements, **BISA** will continue to liaise with concerned stakeholders to ensure that all babies born to India n families have their birth registered, & that women and children have access to immunization and health care from Government health Institutions.

Jointly observed Children Day with CHILD LINE: BISA children & child line observed on 14 Nov.120

children went to DM office, Barasat police station, Barasat GRP through rally with slogan on deferential social issues like stop child

marriage. Children met with gov' t stakeholder & handshake. They wished them .

Hygiene kits support through REDCROSS:

Red Cross society provides hygiene kits to the 50 children. President of society Dr. Baidyanath Mukherjee, Secretary Dr. Sanatan Bandhyapadhyay & Assistant Director Mr. Subhas Choudhury distributed all kits among the slum children at Hatkhola 26 no word of Barasat Municipality.

Sankalpo- ii: District Child protection Society {DCPS} of North 24 parganas administration conducted by

Sankalpo - ii part for awareness programme whole district. BISA selected for Barasat 1 -2 block & Barasat Municipality. This year focus on reduce Child Marriage, Anti-trafficking and Kanashree committee formation, check list of monitoring about complain box. BISA team show video on child marriage and next point participatory process method Applying in the school room where all children participate on discussion .they kept their opinion on the particular issues. Students use chart paper where one students note on the paper of all students think. They chalk out safety net on human trafficking.

Workshop on DVA 2005: On 24 dec. BISA take initiative a one day District level workshop on DVA 2005 at sanhati library near Hridoypur railway station of Barasat in North 24 parganas under **Unified Law Network banner**. They arise some question about their agriculture related. Resource person facilitated the programme. The programme started 11am to 5pm.

Both side discussions:

1. Safe soil.
2. Soil health card
3. Reduce cost

FUND: BISA has not got any institutional grant yet. The fund collects from member's subscription & donation, volunteers as well as our wishes. We hope our commitments and works towards our society and nation will be appreciated and institutional contribution will encourage us to go to our ultimate dream.

Case Study: Sakina Khatun was a domestic child labour. She is 19 years old. She is elder daughter of her parents. Her father's name Sahid Gazi & Mot -her's name Sanoka Bibi . sakina has two sisters. Sister next to her is 16 years old, next one is 15 old. For long time her parents are suffering from many disease. So they can't involve themselves properly with their livelihood. sakina,s mother work as a maid servant in some houses. In the mean time, Sakina involved herself with her mother to earn money and to help her family. Subsequently she was detached from education & didn't go to school on regular basis. Sakina was just on the edge to be dropped-out from the school when read class 5. BISA volunteers identified this girl & met her parents. She started to come to the multi-purpose center daily as well as received education support in evening. Sakina has passed Madhyamik exam classes and her education is still going.
